

Call Smart Buy for Cutting Sticks at 804-998-7338

■ High quality PVC material

Materials:

PVC cutting sticks

PP cutting sticks

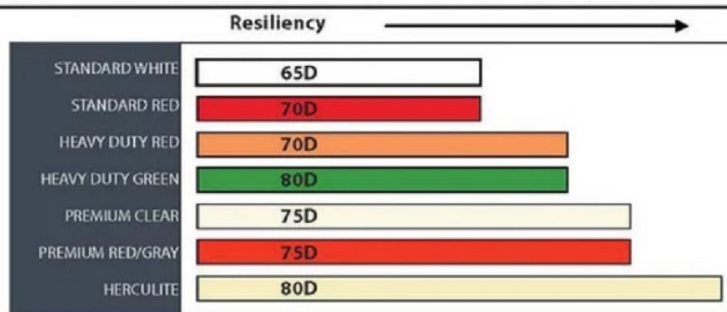

PET cutting sticks

Nylon cutting sticks

Materials, Colors & Descriptions

Standard White	The standard by which all sticks are measured. It's resiliency, self healing and non abrasive characteristic will not compromise blade life. Recommended for use with every grade of steel knife.
Standard Red	Non-abrasive material similar to the standard white stick. Recommended for use with every grade of steel knife.
Heavy Duty Red / Green	Long-lasting durable material harder than standard white and premium.
Red Premium	Most resilient, self healing material on the world market. Elasticity allows the stick to recover it's shape and size quickly from knife cuts. Recommended for all cutting operations, particularly those running extended hours. Exceptional performance with high speed steel or carbide knives.
Premium Gray/Red	Clear in color. Same qualities as our red premium material.
Premium	Heavy duty polypropylene sticks made for high volume cutting applications. They are very abrasion resistant and easy on knives. Recommended for carbide knives.
Herculite	Extremely durable material made exclusively for three knife trimmers including Kolbus, Muller Martini, Wohlenberg and Lawson.

The hardness of the cutting stick is measured in Durometers. The higher the Durometer number, the harder the stick. See below for Durometer hardness of the stick.
